

Options for Graduation

Options for Graduation is a learning program specifically for Puget Sound Skills Center seniors who are credit deficient. The students must be senior status and unable to complete graduation requirements and remain enrolled in a Skills Center vocational program. The program is not designed for students who desire to have early dismissals or late arrivals. Qualified students will develop contracts on an individual basis with the Options Coordinator for graded credit in areas such as English, Health, Mathematics, Science and Social Studies. See Mr. McSweeney, VITAL instructor, for further information.
